TEAM DYNAMIC DISCS

DISTANCE DRIVERS

FREEDOM

For the big arm throwers, this disc will go a long way on an anhyzer line with a predictable fade back to stable at the end giving easy distance on hyzer flip shots. For those with lower arm speeds, the Freedom is the long distance driver that you have been wanting and asking us to produce. This disc will sail past that spot in the fairway where you normally land. It will take your usual throw and translate it into uncommon distances.

SPEED: 14 | GLIDE: 5 | TURN: -3 | FADE: 3

CAPTAIN

The Captain is a great introduction to distance drivers for newer players and a predictable understable disc for more experienced players. With surprising speed and controllable turn, the Captain can help players add distance over discs with similar rim sizes. Follow the Captain to new, longer flights!

SPEED: 13 | GLIDE: 5 | TURN: -2 | FADE: 2

SHERIFF

A versatile high-speed disc is hard to find. They are usually too far on one side of the spectrum to be a true multi-tool. Introducing the Sheriff by Dynamic Discs. Long anhyzers, flex shots, pure hyzers; the Sheriff will arrive just in time to protect you from the onslaught of bogeys sure to come without the right disc.

SPEED: 13 | GLIDE: 5 | TURN: -1 | FADE: 2

ENFORCER

You no longer need to make a choice. You don't have to sacrifice distance in order to have stability. You don't have to fear flipping over when you need a big throw. The Enforcer mixes these two needs beautifully. It will fly great into a wind. It can be turned over for a very predictable S-flight. It is a wonderful disc for a spike shot. The versatility and predictability of the Enforcer has proven itself and is a staple in the bags of many world class professionals.

SPEED: 12 | GLIDE: 4 | TURN: 0.5 | FADE: 4

DEFENDER

The problem with the highest speed discs is that they are historically understable. This is no longer an issue. The Defender is here. Fast. Stable. Neither of these descriptions will be in dispute after you unleash this scorcher. You will no longer have to put away your high speed discs when the wind begins to blow. The Defender will have your back when the course and the elements conspire to take you down. Signature disc for 4x World Champion, Paige Pierce.

SPEED: 13 | GLIDE: 5 | TURN: 0 | FADE: 3

RAIDER **2019 RELEASE**

The Raider is sure to steal its spot in bags of all skill levels. The Raider sits comfortably between the Trespass and Enforcer in stability, and it excels at finishing forward instead of diving at the end of its flight. Players with slower arm speeds will find a dependable, overstable driver that will gain them distance over the Enforcer or Defender, while faster arms will love the Raider as a workhorse driver that is perfect for carrying multiples to cover a variety of shots. Get ready to put some power on your distance shots, and watch the Raider destroy your previous best drives.

SPEED: 13 | GLIDE: 5 | TURN: -1 | FADE: 3

TRESPASS

The Trespass is the high-speed driver for the masses. It is very neutral in its flight, not being too stable or flipping over. The wide rim is able to take all the power that you can throw at it and just keep gliding to new distances. The Trespass will allow you to break through all obstacles and explore new territory in your distance drives.

SPEED: 12 | GLIDE: 5 | TURN: -0.5 | FADE: 3

RENEGADE

The Renegade was designed to suit players of all skill levels. The Renegade is a very fast, understable flyer for slower arm speed players. Players with more power will find the Renegade useful for super long tailwind shots, anhyzers, and long rollers. With superior glide, the Renegade will benefit everyone who puts it in their bag.

SPEED: 11 | GLIDE: 5 | TURN: -1.5 | FADE: 2.5

HENRIK JOHANSEN
TEAM DYNAMIC DISCS

ZACH MELTON
TEAM DYNAMIC DISCS

FAIRWAY DRIVERS

CRIMINAL

With more glide than the Felon and more stability than the Convict, this Criminal is exactly what you need to assault your high scores. You can trust this fairway driver to cover the ground necessary without giving up the stability you need for confident throws. Befriend this Criminal, and you will start to do some bad things to your course.

SPEED: 10 | GLIDE: 3 | TURN: 1 | FADE: 4

FELON

In the same vein as our game changing Escape, the Felon is a fairway driver that feels great in your hand and comes out easy. The Felon is the wind-fighting fairway driver that your bag is calling for. It will continue to sail without turning over despite the headwind that is challenging your confidence. When the wind is down, it has an incredibly predictable hyzer finish.

SPEED: 9 | GLIDE: 3 | TURN: 0.5 | FADE: 4

GETAWAY

Do you love the Escape but need more stability? Look no further than the Getaway. While it shares the feel and glide of an Escape, the Getaway boasts a more predictably overstable flight with moderate fade. When straighter flights with a subtle fade are a must, trust the Getaway.

SPEED: 9 | GLIDE: 5 | TURN: -0.5 | FADE: 3

Paige Pierce
2019

CONVICT

Paige Pierce has called the Lucid Convict an underrated disc and quite possibly the best fairway driver she's ever thrown. Maybe that's why she chose it for her signature disc. It is a great complement to the Felon with the same feel in the hand but with less stability. The Convict is perfect for those times when you need a straight disc for most of the shot but must have some stability at the end of the flight. The Convict can also hold the anhyzer you give it before coming back to flat.

SPEED: 9 | GLIDE: 4 | TURN: -0.5 | FADE: 3

ESCAPE

One word can summarize the Escape: glide. The description cannot stop there, however. The Escape is a fantastic disc for all levels of skill, power, and distance. It has such an easy release, and the glide will keep this disc going even when less power is applied. It can fly on all angles and is even extremely useful as a roller. Break away from your expectations and escape your high scores of the past.

SPEED: 9 | GLIDE: 5 | TURN: -1 | FADE: 2

VANDAL 2019 RELEASE

The Vandal flies like a longer Maverick, so it's extremely versatile. Newer players will love the straighter lines they can throw, and players with more arm speed will enjoy it for easy turnovers or rollers. The Vandal is built to carve up any course with dependable turn and sneaky speed.

SPEED: 9 | GLIDE: 5 | TURN: -1.5 | FADE: 2

WITNESS

The Witness is a great fairway driver for players with lower arm speed. An understable flight path and tremendous glide make the Witness an excellent choice for players looking to gain distance without sacrificing accuracy. Bigger arms can use the Witness for controlled anhyzers, hyzer flips, and rollers.

SPEED: 8 | GLIDE: 6 | TURN: -3 | FADE: 1

THIEF

The Thief is a versatile fairway driver that will benefit players of all skill levels. With a stable flight path and glide, the Thief will be a fairway workhorse for every bag. For slower arms, the Thief will be an overstable complement to the Witness. For big arms, the Thief will be a straight flyer with slight hyzer release.

SPEED: 8 | GLIDE: 5 | TURN: -1.5 | FADE: 2

MAVERICK

The Maverick can fit in nearly every player's bag. The Maverick offers controllable speed and straighter flights for slower arms with trustworthy anhyzers and slow turns for experienced players. The Maverick shines in the woods with low ceilings and tunnel shots. Versatility and workable speed allow the Maverick to steal throws from even the most established bags.

SPEED: 7 | GLIDE: 4 | TURN: -1.5 | FADE: 2

ERIC McCABE
TEAM DYNAMIC DISCS

MIDRANGE

JUSTICE

Strong winds will make the most experienced player look like a novice. They have forced us back into the laboratory to solve the midrange question. Our tests have led us here. The Justice is served. The Justice by Dynamic Discs is going to become your new utility disc. It will not turn over. Throw the Justice one time and you will not need to reach for anything else for a short distance, overstable answer.

SPEED: 5 | GLIDE: 1 | TURN: 0.5 | FADE: 4

VERDICT

Predictable. Overstable. Midrange. This is the Verdict. You can trust this disc to get the midrange distance you need even when the winds are threatening to flip everything that you throw. The Verdict is a great complement to the Truth in speed and feel in the hand. If you love one, you will love the other and be able to accomplish many more shots that you need. The Verdict has been handed down. Get rid of high scores with the Verdict.

SPEED: 5 | GLIDE: 4 | TURN: 0 | FADE: 3.5

EMAC TRUTH

Walt Whitman said, "Whatever satisfies the soul is truth." The Truth had lost its way and wasn't as stable as we wanted it to be. The EMAC Truth sets the record straight. The beautifully neutral and versatile flight of this disc will remind you of the core of disc golf: to throw a disc where you want it to go. Let the EMAC Truth take you back to this satisfying feeling. May the Truth be with you. Signature disc for 2010 World Champion, Eric McCabe.

SPEED: 5 | GLIDE: 5 | TURN: 0 | FADE: 2

TRUTH

The best midrange disc in the game. The Roc and the Buzzz showed us how versatile and trusted a midrange can be. We took the best of all worlds and the Truth has been revealed. Hyzer, straight, anhyzer, distance, approach, low ceiling power shots, and high floating drop shots have all been accomplished with the Truth. Beginners and World Champions love this disc and lower their scores with it, and you will, too.

SPEED: 5 | GLIDE: 5 | TURN: -1 | FADE: 1

FUGITIVE

The Fugitive is the straight-flying midrange that holds any line you put it on. The Fugitive allows players to throw pinpoint, accurate shots. The Fugitive is ideal for slower arm speeds that need straight shots without compromising form.

SPEED: 5 | GLIDE: 5 | TURN: -0.5 | FADE: 1.5

EVIDENCE

The Evidence is a slightly understable midrange disc that is very controllable. Where the Verdict and the Truth take care of your straight to overstable midrange needs, the Evidence will handle the other side of the spectrum. It will hold the anhyzer angle through a full glide while slowly coming back to a flat flight. The Verdict, Truth, and Evidence feel very similar in the hand with complementary flights to carve around any obstacle you face.

SPEED: 5 | GLIDE: 5 | TURN: -1 | FADE: 0

WARRANT

The Warrant is the understable disc that our customers have been requesting. On stronger throws, it will hold the anhyzer angle for the whole flight without flipping over or rolling. When distance isn't the goal, the Warrant will hold just about any line that it is thrown on. It will be a fantastic disc for carving lines in the woods or getting around obstacles. It feels similar to the Verdict/Truth/Evidence but flies like nothing else we have.

SPEED: 5 | GLIDE: 5 | TURN: -2 | FADE: 0

SUSPECT

The Suspect is a perfect in-between disc. With a very low profile and small diameter, it feels like a putter. With built-in stability and great glide, it can fly like a midrange. You can use it for either. When thrown hard, it flies flat and lands soft, it is a great stable approach disc. The blunted nose also makes it great for sticking the chains if you need a headwind putter.

SPEED: 4 | GLIDE: 3 | TURN: 0 | FADE: 3

PATROL

Newer players and slower arm speeds can greatly benefit from a slow, understable midrange. Enter the Patrol, with a comfortable rim for smaller hands and an easier flight for beginners to learn. Experienced players will find an easy-to-throw roller in the Patrol, but slower arms will find a staple for shots that need an understable turn or little fade.

SPEED: 5 | GLIDE: 5 | TURN: -3 | FADE: 1

ERIC OAKLEY
TEAM DYNAMIC DISCS

PUTTERS

SLAMMER

Too long for a putt. Too short for a full throw. The doubts come creeping in when you are between discs. Slam the door on those negative thoughts. The Slammer by Dynamic Discs is meant for times like this. The Slammer feels like a putter but can be thrown with the power of a midrange without even thinking about flipping over. Approaching will now be a walk in the park. Get to the basket better and cast off those loose strokes with the Slammer.

SPEED: 3 | GLIDE: 2 | TURN: 0 | FADE: 3

MARSHAL

To bead or not to bead. This is one of the most fundamental questions in disc golf. While the Judge and Warden from Dynamic Discs each have their own opinion, the Marshal comes to establish peace in this fight. The microbead and slim profile of the Marshal makes for a disc that feels and releases great. With more stability than one would expect from this profile, the Marshal will usher in a new era of confidence and comfort inside the circle.

SPEED: 3 | GLIDE: 4 | TURN: 0 | FADE: 1

JUDGE

Why was the Judge named the 2013 Disc of the Year in the Player's Choice Awards? It is incredibly predictable in flying and hitting the chains. It is a fantastic throwing putter that will fly straight and glide for amazing distances. It comes in 7 different plastics so that your preferred feel is available in this disc. Come see why this disc has become so popular and judged other, more well-known discs to be insufficient.

SPEED: 2 | GLIDE: 4 | TURN: 0 | FADE: 1

WARDEN

To bead or not to bead. That is the question. Introducing the Warden, Dynamic Discs' beadless putter. With an extremely smooth release and neutral flight, the Warden will come out of your hand easily and fly dead straight to the chains. With more glide than the Judge, it will stay in the air longer to help deflate those high scores. The Warden would like to see you now.

SPEED: 2 | GLIDE: 4 | TURN: 0 | FADE: 0.5

GUARD 2019 RELEASE

When you need a bit of extra glide to get your putter to the basket, look no further than the Guard. The Guard can handle some power, and it excels as a neutral flyer when used off the tee or for upshots. With a deeper profile and beadless rim, the Guard will help you protect against those dreaded low putts!

SPEED: 2 | GLIDE: 5 | TURN: 0 | FADE: 0.5

DEPUTY

If your short game needs some assistance, look no further than the Deputy. Boasting the most understable flight of any Dynamic Discs putter, the Deputy allows for easy turnover flights at faster speeds and smooth straight flights at low speeds. Those with smaller hands or who prefer slimmer, beadless profiles will love the feel of the Deputy, as it is slightly more shallow than the Judge, Warden, and Marshal. Take your putt and approach game to the next level with the help of the Deputy!

SPEED: 3 | GLIDE: 4 | TURN: -1.5 | FADE: 0

BREAKOUT

The Breakout is the slightly understable fairway driver from Dynamic Discs that you need when you have to have a bit more distance but can't sacrifice accuracy. It will hold an anhyzer angle without turning over all the way to the ground.

SPEED: 8 | GLIDE: 5 | TURN: -1 | FADE: 1.5

PROOF

The Proof is great for a beginner. With a small rim, small profile, and light weight, this disc will zoom out of the hand. With its excellent glide, the lighter weights will not matter as this disc can really get out there quickly.

SPEED: 5 | GLIDE: 6 | TURN: -3 | FADE: 1

GAVEL

With a smaller profile and overall width, it fits great in smaller hands and has a very easy release. Beginners and seasoned players alike will love this lightweight, smaller-rimmed option.

SPEED: 3 | GLIDE: 5 | TURN: -2 | FADE: 0.5

EASY TO THROW SET

The Easy To Throw Disc Golf Starter Set from Dynamic Discs comes with everything a new disc golfer needs to play disc golf - a putter, a midrange, and a driver. Inside you will find three discs from the Dynamic Discs Easy To Throw line.

AVIATOR

THE ULTIMATE IN FLIGHT

AVIATOR

A disc in flight is a beautiful thing. A pinpoint pass to a sprinting teammate over the outstretched defender is magical. The Aviator looks to bring these highlights to your regular game. Specifically crafted to glide further and straighter, the Aviator will do both of these longer than any other disc on the market.

More Glide: With a slightly deeper rim, the Aviator will glide further and provide more room for error when catching.

More Stability: Wind and power throws can compromise ideal flights. The Aviator was designed to be more stable to ensure a consistent flight in adverse conditions.

More Durable: Knowing that time is the enemy of all discs, this plastic was purposefully chosen to last longer than every other disc available.

Weight: 175g

PRIME

Prime has an incredible feel and excellent grip even when the weather compromises your hold on your favorite disc. These are all secondary benefits to this incredible line of discs. Our guiding intention was to bring a product to market that was affordable for beginners looking to test the waters. We truly endeavor to grow the sport. Putting Prime discs in beginners' hands will be a great way to do that.

Classic

This is where it all started. Classic plastic has the feel that has been around since the beginning of disc golf. Firm discs with exceptional grip in wet or dry conditions. Easy to throw with a very true flight. There is a reason this blend has had such great staying power, it is great.

Classic BLEND

Blend is exactly what it sounds like. All of the best characteristics of Classic and Classic Soft together in one plastic combination. Great feel. Great release. Great flight. Great chain grabbing. The best of both worlds for feel, flight, and finish.

Classic SOFT

For the player that has to have more flexibility but still wants to retain a great grip, Classic Soft is made with the chains in mind. While you will give up a little distance on a full power shot, the chain grabbing nature of this plastic will win back many more shots than it loses. The goal is to get into the chains. This plastic does it better than any other.

fuzion^{BIO}

BioFuzion plastic is the byproduct of a mixture of Lucid and Fuzion plastics that had blemishes or cosmetic flaws. Some of these discs may have specks of plastic, flakes, or other minor cosmetic flaws that will not affect the flight, performance, or durability of the disc.

LUCID AIR

Lucid Air uses the same material as our durable Lucid plastic. It has solid plastic at the top and bottom of the rim to protect the microbubbles in the plastic on impact. These microbubbles actually make the disc lighter, and they are spread out through the top of the disc and middle of the rim to keep the weight distribution nearly identical to Lucid and Fuzion discs.

LUCID

The perfect combination of polymers produce some of the most beautiful and durable plastic in disc golf. This translucent blend can take a beating and maintain the original flight characteristics of the disc for many rounds of disc golf.

fuzion

Fuzion combines the durability of Lucid with an advanced polymer to form a non-transparent blend of plastic. This plastic also provides players with additional grip.

MOONSHINE

Moonshine has all of the benefits of Lucid with an added feature - it glows in the dark! Give your disc some light and keep golfing all night long. Expect Moonshine molds to be slightly more overstable than the Lucid version.

**DISTANCE** — **FAIRWAY** — **MIDRANGE** — **PUTTER** — **EASY TO THROW****DISTANCE DRIVERS**

Distance Drivers, as their name suggests, have the greatest potential to travel the greatest distance. However, they also require the greatest speed to travel true to their intended flight characteristics.

**MIDRANGE**

Midranges are a great disc to choose as your first disc. Midranges often offer straighter flights and won't vary from their intended flight to the degree that fairway and distance drivers will if thrown errantly.

**FAIRWAY DRIVERS**

Fairway Drivers have slightly smaller rims than distance drivers and are easier to control because they have less speed potential.

**PUTTERS**

Putters are the deepest, slowest, disc golf discs and have the thinnest rims. Putters are intended to fly shorter distances and on straighter lines.

BAG LINE

RANGER H2O

In 2 short years, the Ranger has become the go-to bag for pros and amateurs alike. We decided to add some amenities based on customer feedback. The bottom of the bag is now a molded plastic bottom going 4 inches up the bag on all sides. The included rain hood will cover the top and front of the bag but still allow for easy access to the main disc compartment. The H2O also comes with a fully integrated water bladder system that can hold up to 2 liters. We have added a sleeve in between the main pocket and top pocket that allows easy access for a go-to disc. Additionally, the putter pocket has been expanded ever so slightly so that two discs fit snugly, yet get in and out easily. Everything that could be added to the great Ranger has brought us this exceptional addition to the most complete bag lineup.

RANGER

A bag for any disc golfer! High-end quality, all-day comfort, and amazing price unite for the first time for a disc golf bag. Proven to be a favorite of casual golfers and touring professionals, the reputation of the Ranger is overwhelmingly positive. Holding 20 discs in the main compartment and 2 putters in the signature side pocket, the Ranger is ready to carry every disc you will need during the round. The top pocket is amazingly roomy, even holding several items of clothing when you need to shed layers during a warming day. With plenty of extra storage for a cell phone, accessories, drink bottles, an umbrella, a stool, etc., you can bring everything along with you. All of this is carried with you by the most comfortable straps on the market. With oversized feet and a rigid structure, the Ranger stands demanding the attention of anyone who is serious about getting the best bag in the game.

COMMANDER

The bag game is changing. Until now, a player has had to trade quality for a low price, but the Commander is here to change that. With a 20-disc main compartment, you will not sacrifice carrying capacity for a smaller footprint. In addition, the 2 pockets on the vertical wall allow for several more discs to head out to the course. Full length zippered vertical pockets can hold all of your extra gear with room to spare. 2 bottle holders, 2 cell phone sized pockets, chair/umbrella strap, and an incredibly lightweight but durable construction will make this bag a favorite of casual and tournament players alike. Take command of your game.

SNIPER

The first entry-level backpack style bag of quality has arrived. Nothing close to this style, durability, and structure has ever been available for this low of a price. Holding 16 discs in the main compartment, this is not just a “weekend” bag. It can handle all you will need on the course. With a deep top zippered pocket and internal mesh pocket to take care of all of your extras, 2 bottle holders to carry your drinks and reinforced padded backpack straps, the Sniper is ready to get on the course and take out the competition.

TROOPER

Excellent value meets superior disc storage in the Dynamic Discs Trooper. Boasting a slimmer profile, the Trooper is perfect for any disc golfer seeking a backpack-style bag at a more affordable price. The Trooper can hold 18+ discs in its main compartment along with up to 4 putters in the top pocket. The drawstring-enclosed water bottle pocket adjusts to most popular bottle sizes, and two smaller side pockets ensure separate storage for keys, cell phones, wallets, minis, or other small articles you need out on the course. With a sturdy base and lightweight frame, the Trooper will help you endure the test of any course!

SOLDIER COOLER

Dynamic Discs is bringing a new type of disc golf bag to the market that combines the popular Soldier bag with a removable zippered insulated cooler compartment that holds six 16 oz cans. The Soldier Cooler bag will hold 10-12 discs in the main compartment with the cooler in use and 18+ discs when not in use along with two putters in the putter pocket. You can now enjoy a round of disc golf and have cold drinks the entire time!

SOLDIER

Players that prefer a non-backpack style bag will find everything they need in the Soldier. The Soldier has the capacity for 18+ discs in the main compartment, 2 discs in the putter pocket, and plenty of extra storage for valuables, accessories, snacks, and water. The internal U-shaped frame will keep your discs in place, and two included dividers allow you to section your discs as you please. The Soldier comes with an over-the-shoulder strap but includes connections for backpack straps. With the build quality you've come to expect from Dynamic Discs at a price point friendly enough for almost any disc golfer, the Soldier is ready to organize your game and tackle the course!

CADET BACKPACK

The Cadet Backpack is a game-changer at an affordable price. The Cadet Backpack boasts room for 20 discs in the main compartment, making the mesh side pockets available for water bottles or even more discs! One large and one small accessory pocket ensure that you're never without your wallet, keys, mini, and scorecard holders out on the course. If you've been looking to try out a backpack-style bag but don't want to break the bank, look no further than the Cadet Backpack.

CADET

The Cadet is the perfect bag for first-time disc golfers and beginners. With the capacity for 8-10 discs in the main compartment, 2 putters in the putter pocket, and a 20 oz. water bottle, the Cadet's lightweight material allows you to carry the discs you need without weighing yourself down. If you're new to disc golf or love the simplicity of carrying only a few discs, enlist the Cadet for your game.

Features:

- Holds 8-10 discs in the main compartment
- Holds 2 putters in the putter pocket
- Lightweight
- Includes adjustable shoulder strap
- Mesh pocket for scorecard, pencils, and minis
- Drink holder will hold your average 20 ounce water bottle

ZUCA CARTS

FOR WHEREVER THE GAME TAKES YOU

ZUCA BACKPACK CART LG

Our expanded capacity "LG" cart offers 50% greater capacity than our original Backpack Cart. Turn your favorite bag into a rolling backpack and go anywhere with less effort and stress. Travel with heavy gear on any terrain - from urban to suburban. ZUCA gets you there while avoiding back and shoulder strain and always offering you a seat! Lifting up the built-in seat allows easy access to contents and the flexibility to carry a variety of disc golf bags and equipment.

The "LG" comfortably holds the Dynamic Discs Ranger H2O Backpack along with the rest of the Dynamic Discs bag lineup as well as the Latitude 64 bag lineup.

Technical Specs:

- Sturdy, patented frame doubles as a portable seat rated to safely support up to 300 lbs
- Fits large specialized backpacks up to 11"D x 16"W x 20"H.
- Go off-road in all seasons with all-terrain tubeless foam tires that keep rolling over rocks, sand, snow and rough terrain
- Removable wheels allow for more compact storage in back seats and closets
- Gear platform to carry additional load
- Sealed wheel bearings mean low maintenance and a smooth ride
- 51" Telescoping handle
- This cart DOES NOT meet FAA specifications for carry-on baggage

Dimensions:

26.52"H x 24"W x 16"D (including wheels)

COMPACT CART

For disc golfers who carry a smaller set of discs, ZUCA's newest cart is a more compact carrier, offering the same telescoping handle, removable tubeless tires, and rugged performance characteristics of the All-Terrain Disc Golf Cart. The patented ZUCA frame holds up to 300 lbs, offers a slightly lower seat, and breaks down to 20" H x 10" W x 11" D size with wheels and spacers and bottle cages removed and tucked into the unit (compared with the 24" H x 10" W x 13" D size of the All-Terrain Disc Golf Cart).

The Compact Disc Golf Cart ships with 2 XL water bottle holders and a mini pouch duo (fits on inner top shelf).

Insert bag features include:

- 2 pencil mollies
- adjustable inner top shelf
- built-in disc holder flap (for up to 15 discs) with divider
- 2 elasticized side pockets

Dimensions with wheels:

22" wide x 17" deep (with XL bottle holders attached) x 20" from the seat to the ground

Interior dimensions:

13" high x 10" wide x 10" deep

Weight:

14 lbs

SEAT CUSHION

Call it what you want. This quilted and padded miracle will keep your butt from freezing to your cart, and your buns from aching.

PUTTER POUCH

This must-have 5-pocket pouch keeps game essentials within easy reach at every hole. Handy access to your putters, scorecard, and pencil — plus plenty of room for a phone, birdie bag, and snacks. Easily secure to the pole handle with a Velcro strap. Includes 2 grommets for hanging towels and more.

RAINFLY

Don't let a little rain dampen your day—protect your gear from the elements.

UMBRELLA HOLDER

Keep the rain or the sun off your back, even while seated! Our sturdy umbrella holder gives you a hands-free way to hold your umbrella when it's open. Snaps onto the top pole of the All-Terrain telescoping handle, and easily removed when not in use. Made in the USA.

FENDERS

The Dynamic Discs Cart Fenders protect your bag from the elements and everyday wear and tear. They are easy to wipe clean and are made of sturdy high-density polyethylene that is specifically formulated for the outdoor environment. Fenders are UV stabilized with color dyes that will not break down in harsh heat, sunlight, or salt water. Simple to install and remove with specified tools.

Custom Hot Stamp Program

Are you running a tournament or do you need some custom discs for your local disc golf club or company? Dynamic Discs can now hot stamp your design on disc golf discs and include additional sponsorship items if your hot stamp design is event based.

If you are placing an order for a tournament or event that you are running, please be sure to mention this on your order form so we can include sponsorship items with your order. You will need to include your event flyer or link to your registration page. You must meet all Tournament Requirements to receive a sponsorship package.

Order Minimum (discs or minis, not a combination)	50
Minimum per mold	10
Disc minimum for Opto Bites	50
Setup fee on all orders under 100 total discs	\$75
Setup fee on all re-orders under 100 total discs	\$20
Setup fee on all orders of 100+ discs or 200+ minis	\$0
Lead Time	3 weeks

What is DyeMax?

DyeMax is a proprietary process that Dynamic Discs uses to provide the most detailed image that can be put on a disc.

Is it dye?

No, we liked the name DyeMax and thought that it was suiting. The process actually uses some of the best and most expensive inks on the market that provide vibrant colors and detail that cannot be matched by traditional custom dyes.

Why?

DyeMax provides an impressive image on the disc that will not bleed or migrate into the plastic. The way that the disc looks on day one will be the same that it looks one year later!

Can I send in my own art, image, graphic, or picture?

Yes, we encourage you to send in your own artwork. You send it in, we will convert your image on to a disc, and have it out the door in less than 48 hours (from final payment) in most instances. We recommend the image be at least 750x750 pixels in size to ensure a sharp finished product. We can do the design on as few as one disc or on as many as you would like. There may be a delay if we need to order certain discs that we don't currently have in stock.

How to order?

We now have a listing in our online store where you can choose your disc and upload your photo straight to our DyeMax department.

MICRO RECRUIT

Keeping a full-size Recruit basket on your desk is just not practical. We want to help you keep disc golf on your mind while not on the course. Introducing the Micro Recruit: standing at just 13" and having a footprint of just over 6" and weighing in at 3.5lbs, this little fella is super sturdy but can fit just about anywhere. Great as a desk ornament, gift or perfect as a trophy at your next tournament. The Micro Recruit will bring maximum enjoyment.

Color: Matte Black

The top band on the Dynamic Discs Micro Recruit Basket is 1.5" tall.

MINI RECRUIT

Dynamic Discs has again disrupted the market for competitors. Mini basket size with permanent basket materials and construction. The Recruit Mini comes with the same signature angled spokes and color scheme/design as the full-size Recruit basket. It even has 2 sets of chains. Weighing in at just over 11lbs, you will never be concerned as to whether or not this basket will get knocked over during use. Standing at 26 1/2 inches, it is compact enough to take anywhere. Get this basket and your options for setting up a course are only limited by your imagination.

Color: Matte Black

The top band on the Dynamic Discs Mini Recruit Basket is 1.75" tall.

JUNIOR RECRUIT

We're happy to introduce the first Junior basket available on the market in the Junior Recruit! The Junior Recruit is designed to exactly mimic its bigger counterpart in the ever popular Recruit basket. Featuring 13 zinc-coated chains, a two-piece pole for easy assembly, and a sturdy base, the Junior Recruit is sure to be an excellent fit for the youth of our sport. With an assembled weight of 28 pounds, the Junior Recruit is sturdy enough to avoid imbalances while being light enough to maintain its portability. Coming in at just under 3' tall and 18" wide, the Junior Recruit is a perfect fit for an office, a playground, or even a classroom, all while pairing perfectly with our newly released line of Junior discs!

Color: Matte Black

The top band on the Dynamic Discs Junior Recruit Basket is 2" tall.

MARKSMAN

The Marksman by Dynamic Discs will make you a better putter. Period. It will force you to focus while putting and have a more repeatable putt. It will give you more confidence and sharpen your mental game. It will take strokes off of your score. If you want to get better, get the Marksman.

- Color: Gunmetal
- 15 chain sets that are zinc coated
- The Marksman Basket is electrophoresed first and then powder coated for extra protection from natural elements
- Tension screws are included for increased stability
- The top band on the Dynamic Discs Marksman Basket is 3" tall.
- The Marksman Basket is easy to carry in a car's trunk because the pole is made of two parts
- The Dynamic Discs Marksman Basket is mainly meant for portable use. Meaning permanent installation, or prolonged exposure to the elements, can eventually compromise the integrity of the basket's composition

RECRUIT

Ask every top level player if putting practice is important and you will get a unanimous “Yes!”. It would be ideal for each golfer to have their own practice basket. However, a good basket will cost over \$300. There are baskets that are much cheaper, but they have thin and relatively few chains which lead to disappointing practice sessions because of all of the good putts that don’t stay in the basket. Introducing The Recruit by Dynamic Discs. This basket is tournament quality at practice price. It can be put together or taken down in about 2 minutes and comes with all the necessary hardware and tools. The Recruit has 26 strands of chains on inner and outer layers. Weighing in at just over 60 lbs, it is very sturdy, but with the built in wheel on the base, it is very easy to move.

- Color: Matte Black
- 13 inner and 13 outer chain sets that are zinc coated
- The Recruit Basket is electrophoresed first and then powder coated for extra protection from natural elements
- Tension screws are included for increased stability
- The Recruit Basket is approved at the Standard PDGA level which means the basket can be used in play for any event up to, and including, a B-Tier
- The top band on the Recruit Basket is 3” tall
- The Recruit Basket is easy to carry in a car’s trunk because the pole is made of two parts
- The Recruit Basket is mainly meant for portable use. Permanent installation, or prolonged exposure to the elements, can eventually compromise the integrity of the basket’s composition

A close-up photograph of a white metal basketball hoop. The rim is the central focus, with the words "PATRIOT" and "BASKET" printed in bold, black, sans-serif capital letters. The "PATRIOT" text is significantly larger and more prominent than the "BASKET" text. The hoop's structure, including the white metal bars and silver chains, is visible in the background and foreground, creating a sense of depth. The background is a soft, out-of-focus green field.

PATRIOT
BASKET

PATRIOT

A true patriot is passionate about the most fundamental of things. The Patriot from Dynamic Discs is the best championship level approved basket on the market at comparable price points. This will deliver a fantastic basket for an excellent price, featuring the same high quality as our Veteran basket. Boasting 26 galvanized chain strands and the superior workmanship that Dynamic Discs consistently produces, the Patriot will grab your putts and serve your course for years to come.

- Color: Gloss White
- 13 inner and 13 outer galvanized chain sets
- Galvanized with a powder coated finish
- Tension screws are included for increased stability
- The Patriot Basket is approved at the Championship PDGA level
- Built-in wheel on base (Portable version only)
- Ground sleeve, locking collar, and padlock included (Permanent version only)
- The top deflector band on the Dynamic Discs Patriot Basket is 3" tall.
- Weight: 57lbs (Permanent version)

VETERAN

As a PDGA approved Championship level disc golf target, the Veteran is a great solution for your most durable basket demands. Equipped with an industry first 18-8 stainless steel chain assembly AND 18-8 stainless steel upper assembly, this basket will look and sound great for years to come. A proven name with a great product at a great price. Enlist the Veteran for your course today!

- Color: Four color options (custom colors available upon request)
- 14 inner and 14 outer chain sets made of 18-8 stainless steel
- Galvanized with a powder coated finish
- Tension screws are included for increased stability
- Approved at the Championship PDGA level
- 3.5" stainless steel deflector band
- Built-in wheel on the base (portable version)
- Ground sleeve, locking collar, and padlock included (Permanent version)
- 19.25" ground sleeve
- Ground sleeve diameter: 54.25mm
- Pole outside diameter: 48mm
- Weight: 67lbs (Permanent version)

GOLDEN RETRIEVER

This foldable device is designed to retrieve sunken golf discs from the bottom of water hazards. It only takes a few seconds and is exceptionally easy to operate. The Golden Retriever is small enough to fit in any disc bag or back pocket.

STOOLS

The stool features three, one-inch diameter tube legs while the seat top is made of three layers of polyester fabric with silkscreen printed branding that is arranged to eliminate seat sag and provide a taller sitting position.

Specifications:

Stool size: 19"H x15" triangular
 Folded Size: 27" x 3" diameter
 Weight: 1 pound
 Capacity: 300 lbs
 Adjustable Shoulder Strap

QUICK-DRY TOWEL

Wet hands and discs are a major issue during bad weather. The Quick-Dry Towel will help you greatly. It absorbs many times its own weight as well as folding up very small when it is not needed. Think about your shot, not your wet grip.

WATER BOTTLE

Double-Walled water bottles are a must for hot days on the course. Vacuum-Insulation means that hot liquids stay hot longer, cold liquids stay cold longer, and ice is retained longer. Designed to fit inside perfectly inside each of the 32 oz. drink holders on the Dynamic Discs bags, this bottle will keep you hydrated for long days of disc golf.

MINIS

Metal and wooden minis make great display items or markers on the course, while plastic minis can be used to mark your lie or play a round of mini disc golf.

SPORTSACK

The Sportsack is the elite hand drying product designed for disc golfers. It uses absorbent technology that is designed to absorb moisture with no mess or residue buildup.

UMBRELLA

Stay dry during those rainy rounds with our all new 59" Square Umbrella. A foam non-slip handle provides a sure grip in all scenarios. The square design helps the umbrella stay in place when set down and covers a larger area to help keep all your gear dry.

SUNGLASSES

Stay fresh on and off the course in your Dynamic Discs Sunglasses!

Protect your precious eyes on a sunny day with these RB sunglasses. These sunglasses are the perfect accessory for your day at the beach or at the disc golf course!

Disc Golf Club Program

As part of our continued efforts to Grow The Sport from the grass roots level, Dynamic Discs is excited to offer a Disc Golf Club Wholesale Program. Once your application is accepted, you will have access to the wholesale website, custom hot stamp program, and sponsorship opportunities. At Dynamic Discs, we offer quick turnaround times on wholesale and custom orders. As a Club, you have a unique opportunity to order custom discs, apparel, and even bag tags from one source.

NEW Clubs must place an initial order of at least \$500 prior to freight.

Please allow 4-5 business days for us to review your information and send you a confirmation.

Retail Display Rack

This is the best display option available in the disc golf market, bar none. This easily portable unit can hold 108 discs on each side using the provided disc racks. It can also be configured to hold hang tag items if you prefer. The shelf can fit two Soldier Bags comfortably or any number of configurations of starter kits, Cadet Bags, or accessories. Under the shelf is the perfect space for two Ranger Bags. Unbelievably, all of these products can be supported by this unit that takes up 6.25 sq/ft of floor space (30"x30"). Get this incredibly stylish unit and take your disc golf section to a new level of professionalism.

Individual grid or slat wall racks are available for separate purchase.

Printable disc placards are available for download from our website. They can be found at dynamicdiscs.com/downloads.

Buyback Retailer Program

Dynamic Discs, Latitude 64, and Westside Discs are excited to present to you a new opportunity that will set your retail store apart from the competition. We would like to introduce the opportunity to be a part of the Buyback Retailer Program. This program has been successful in several different established retail stores with high foot traffic around the country. We believe that it provides a superior level of customer service that gives customers confidence in purchasing at your retail store instead of elsewhere.

If you are not completely satisfied with your purchase of a disc from Dynamic Discs, Latitude 64, or Westside Discs, bring it back within 14 days and we will replace it with whatever disc you want in the store of any brand.

LATITUDE 64°

BALLISTA

One of the fastest discs in the world combined with a dependable flight makes the Ballista a must-have in the bag. It will be overstable for beginners and slightly understable for experienced players.

SPEED: 14 | GLIDE: 5 | TURN: -1 | FADE: 3

BOLT

The flight of this baby is like an understable Halo. It goes very fast and has an understable flight path with good glide. Great distance driver for both ams and pros.

SPEED: 13 | GLIDE: 6 | TURN: -2 | FADE: 3

FLOW

Flow is a high-speed driver with good glide. It has a domey top which gives it good lift and glide. The rim is quite sharp and comfortably wide for the grip (22mm.)

SPEED: 11 | GLIDE: 6 | TURN: -0.5 | FADE: 2

BALLISTA PRO

The Ballista Pro has a great combination of speed, stability and glide. It is the perfect tool for all kinds of distance shots.

SPEED: 14 | GLIDE: 4 | TURN: 0 | FADE: 3

CUTLASS

With good speed, good glide, and a predictable fade, it will be a sharp weapon on the disc golf course.

SPEED: 13 | GLIDE: 5 | TURN: 0 | FADE: 3.5

GLADIATOR

Tests confirmed our Gladiator combines the perfect blend of speed, glide, and distance with overstability.

SPEED: 13 | GLIDE: 5 | TURN: 0 | FADE: 3.5

LATITUDE 64° DISTANCE DRIVERS

HALO

Halo is a high-speed long range driver with excellent speed and distance. The wide weight span will make it fit in many players bags, from pros to amateurs.

SPEED: 13 | GLIDE: 5 | TURN: -0.5 | FADE: 3

KNIGHT

When speed is of the essence, the Knight will ride with haste. This high-speed driver features one of the widest rims yet on a golf disc.

SPEED: 14 | GLIDE: 4 | TURN: -1.5 | FADE: 3

RAKETEN

Raketen (The Rocket in Swedish) is an extremely fast long distance driver due to the unique hexagon pattern. The HEX pattern helps the disc be less affected by air drag so it can fly faster.

SPEED: 15 | GLIDE: 4 | TURN: -2 | FADE: 3

HAVOC

Havoc is a high-speed driver that will give you the distance you need on the course. It flies very fast and seems to never slow down. It's quite easy to throw and will fit advanced and pro players.

SPEED: 13 | GLIDE: 5 | TURN: -1 | FADE: 3

MISSILEN

Missilen (The Missile, in Swedish) is a project that Latitude 64° has been working on for a while. It features hexagon shaped cavities in the surface of both the top of the disc and the bottom of the rim.

SPEED: 15 | GLIDE: 3 | TURN: -0.5 | FADE: 4.5

SCYTHE

This is an overstable and very reliable high-speed driver, produced for the experienced players that need a disc to deliver both speed and control.

SPEED: 12 | GLIDE: 3 | TURN: 0 | FADE: 4

DISTANCE DRIVERS LATITUDE 64°

STILETTO

The Stiletto is the most overstable disc Latitude 64 has ever produced. It hasn't been tested in the hurricane winds yet, but it holds up extremely well in any headwind.

SPEED: 13 | GLIDE: 3 | TURN: 0.5 | FADE: 5

RECOIL

When you need the distance but you do not want to compromise on control, the Recoil fits the bill. Rated at speed 12, this overstable distance driver has a comfortable grip and the mild low speed fade makes it easier to stay on the fairway.

SPEED: 12 | GLIDE: 4 | TURN: 0 | FADE: 3

2019 RELEASE

REBECCA COX
TEAM LATITUDE 64°

LATITUDE 64° FAIRWAY DRIVERS

CULVERIN

Have a blast with this overstable control driver. Culverin will be the perfect choice for long s-curves when you want to finish with a strong fade.

SPEED: 9 | GLIDE: 5 | TURN: -0.5 | FADE: 3

FALCHION

The Falchion is an excellent choice of weapon. This disc is a great step up for beginners who have gained drive power and think that beginner discs are too understable.

SPEED: 8 | GLIDE: 5 | TURN: -1 | FADE: 2

MAUL

The Maul is a fairway driver made for turnover shots. This disc is a great choice for beginners, amateurs, and for people who don't throw extremely far since it's easy to control and grip.

SPEED: 7 | GLIDE: 7 | TURN: -2 | FADE: 1

EXPLORER

Straight flight path and controlled glide, that's what the Explorer brings. The Explorer was designed to be a workhorse for all kinds of accurate fairway shots.

SPEED: 7 | GLIDE: 5 | TURN: 0 | FADE: 2

FURY

The Fury is understable, glidy and a great step up for players that have used our Diamond but feel that the Saint is too overstable.

SPEED: 9 | GLIDE: 6 | TURN: -2 | FADE: 2

RIVER

River has taken the market by storm and is a disc with THE GLIDE. It's easy to throw and fits most player's power and skill levels.

SPEED: 7 | GLIDE: 7 | TURN: -1 | FADE: 1

RIVER PRO

With added stability the River Pro will be a versatile and trusty fairway driver with a slow and steady fade.

SPEED: 6 | GLIDE: 5 | TURN: 0 | FADE: 2

John E McCray

SAINT PRO

The Saint Pro is the big brother of the Saint with added stability for the more experienced player. While more overstable, it maintains the good glide and controllable flight characteristics of the regular Saint.

SPEED: 8 | GLIDE: 5 | TURN: -0.5 | FADE: 2

STRIKER

Striker is the perfect disc for accurate drives; both straight, right and left. The excellent balance of Latitude 64's new driver makes it suitable for most players.

SPEED: 8 | GLIDE: 5 | TURN: 0 | FADE: 2

SAINT

The Saint is slightly overstable on drives up to 350ft and has good carry. Compared to already existing models it is close to being a longer River.

SPEED: 9 | GLIDE: 7 | TURN: -1 | FADE: 2

SPARK

Designed to be the workhorse for accurate fairway drives, you can rely on the Spark's dependable fade and stable performance in the air. Useful in many ways and is perfect for thumbers and forehand shots.

SPEED: 7 | GLIDE: 4 | TURN: -0.5 | FADE: 3

XXX

XXX is Latitude 64's extra overstable control driver. XXX is sincerely a disc for the "big guns" and not for children. Do you have the power to shine with an X-rated disc? If so, good for you!

SPEED: 7 | GLIDE: 3 | TURN: 0 | FADE: 4

LATITUDE 64° FAIRWAY DRIVERS

2019 RELEASE

PIONEER

The Pioneer is an overstable fairway driver made for reliability and consistency. It has a flat top which makes it a great choice for sidearms. With a good amount of speed and a strong fade it is a versatile tool in any bag.

SPEED: 9 | GLIDE: 3 | TURN: 0 | FADE: 4

JOHN MCCRAY
TEAM LATITUDE 64°

EMERSON KEITH
TEAM LATITUDE 64°

LATITUDE 64° MIDRANGE

ANCHOR

You need an Anchor disc to predictably behave, saving you throws, while your competitors risk it all with their widest rim drivers. It is slightly domey, has a big bead, and an overstable flight.

SPEED: 5 | GLIDE: 4 | TURN: 0 | FADE: 3

COMPASS

Navigate your way on the fairway with this midrange from Latitude 64. This straight flyer will go wherever you want. It holds any line in the most predictable way. Not thin, not deep so this disc will fit in any hand.

SPEED: 5 | GLIDE: 5 | TURN: 0 | FADE: 1

FUSE

The Fuse will fit in most players bags. The Fuse has a stable, predictable flight pattern up to 90 meters (300 ft).

SPEED: 5 | GLIDE: 6 | TURN: -1 | FADE: 0

CLAYMORE

The Claymore has a small dome and comfortable grip combined with a neutral flight that will suit most players.

SPEED: 5 | GLIDE: 5 | TURN: -1 | FADE: 1

CORE

The Core is a user-friendly midrange that will be perfect for both amateurs and professional players. The flight is reliable and stable with very little fade in the end of the flight path.

SPEED: 6 | GLIDE: 5 | TURN: -0.5 | FADE: 1

MACE

The Mace can handle a big arm and also be controlled by players with less power. It will hold a hyzer line, fly reliably straight or work its way back on a long anhyzer drive. One disc challenge? Look no further.

SPEED: 5 | GLIDE: 5 | TURN: 0 | FADE: 2

BEETLE

The Beetle is unlike any other disc Latitude 64 has released. It has the shape of an old school flying disc, and it will work just as good as an upshot disc, or as a throw and catch disc off the course.

SPEED: 1 | GLIDE: 7 | TURN: -1 | FADE: 0

CALTROP

The Caltrop is a throwing putter with raised thumb grip and solid overstable flight that will help you make those critical shots to stay in the lead.

SPEED: 2 | GLIDE: 2 | TURN: 0 | FADE: 2

DAGGER

The Dagger is a deep dish beaded putter with great glide.

SPEED: 2 | GLIDE: 5 | TURN: 0 | FADE: 1

LATITUDE 64° PUTTERS

GAUNTLET

The Gauntlet is high profile putt and approach disc with a beaded rim. A stable flyer with good glide makes it a handy weapon in every bag.

SPEED: 2 | GLIDE: 4 | TURN: 0 | FADE: 1

MERCY

Designed with a deeper rim and a slower speed than Latitude 64's earlier putters, it has a stable and consistent flight for putting, approach, and short drives.

SPEED: 2 | GLIDE: 4 | TURN: 0 | FADE: 1

SINUS

The Sinus is a putter with three grip areas on top with different textures. This gives players an option to find the grip and feel they prefer. The flight is quite overstable making it useful in windy conditions.

SPEED: 2 | GLIDE: 2 | TURN: 0 | FADE: 2

MACANA

The Macana is a putter for players that like a beaded deep rim putter but still feel like the Dagger is just a little too deep. Stable in flight, it will serve you well as both a putter and a short range driver.

SPEED: 2 | GLIDE: 5 | TURN: 0 | FADE: 1

PURE

Featuring a comfortable grip and slightly deeper rim than Spike, it will hold the line given to it on your approach shots.

SPEED: 3 | GLIDE: 3 | TURN: -1 | FADE: 1

SPIKE

The Spike has a stable flight path and is excellent for curve shots and straight shots alike. The top surface has TractionZones for optional varied grip. Spike is the disc of choice for those one-disc tournaments.

SPEED: 4 | GLIDE: 3 | TURN: -1 | FADE: 1

DIAMOND

The Diamond is the choice of disc for beginners, children, and people who don't throw very far. It is produced only in weights between 140g-159g, which makes it easy to throw and control.

SPEED: 8 | GLIDE: 6 | TURN: -3 | FADE: 1

PEARL

The Pearl is the second disc in the Easy-to-use series of discs from Latitude 64° that started out with the Diamond. The Pearl is a midrange with a small grip, low weight starting at 150g, and a neutral flight path.

SPEED: 4 | GLIDE: 6 | TURN: -4 | FADE: 0

JADE

When players have increased their arm speed, they have been asking for a natural step up to something slightly more stable, but still easy to use. The Jade will take care of this perfectly!

SPEED: 9 | GLIDE: 6 | TURN: -2 | FADE: 1

RUBY

The Ruby is a Putter with a small grip, low weight starting at 150g, and a neutral flight path.

SPEED: 3 | GLIDE: 5 | TURN: -3 | FADE: 1

LUXURY DELUXE E3

We take disc golf gear seriously. And if you take disc golf seriously, this is the bag for you. Made out of sturdy nylon fabric with artificial leather details and embroidered logos, it is a thing of beauty to behold. The DG Luxury E3 Backpack is made to carry approximately 20 discs, but it can carry 30 if all compartments are used for discs.

We have placed the putter pocket and water bottle pocket holder on each side for easy access. Thanks to the unique front pocket, the bag does not tip forward as easy as other backpacks. The clever umbrella holder enables you to carry the bag with the umbrella opened.

It has a lot of extra pockets and compartments to store your gear. Towels, water bottle, scorecard, pens, keys, phone, wallet, rain gear, umbrella, snacks, mini disc, and extra clothes fit without a problem. And if the rain starts pouring, use the rain cover that comes with the bag.

EASY-GO

Are premium backpacks too big for you? The Easy-Go lightweight backpack from Latitude 64 is the answer. The Easy-Go still holds all the essential disc golf gear you need. It is also ergonomically designed to have a better weight distribution closer to your body. Take it easy! Pack light! Go play!

LATITUDE 64° BAG LINE

CORE

The Latitude 64 Core Bag is lightweight, slim, affordable, and will hold everything needed for your disc golf adventures. This entry-level backpack can hold up to 18 discs in the main compartment and 2 putters in the upper compartment. The lightweight and slim profile is good for your back and will strengthen your tenacity on the course.

SLIM

This is the bag for players who want something good-looking and functional to put a smaller number of discs in.

Features

- Holds up to 8 discs
- Made out of durable nylon fabric
- Drink holder
- Comfortable shoulder strap
- Large zipper pocket to store valuables
- An outer putter pocket
- Latitude 64 logo on putter pocket

PROBASKET SKILL

The ProBasket Skill is for players that want to improve their putting skills. With its narrow profile, it will make putting practice hard and fun, but competition will seem easy when transitioning from the ProBasket Skill to a tournament basket. The low weight, the smaller based mobile foot and divided pole makes this basket easy to move around.

- Color: Gloss Yellow
- 15 chain sets that are zinc coated
- The ProBasket Skill is electrophoresed first and then powder coated for extra protection from natural elements
- Tension screws are included for increased stability
- The top band on the ProBasket Skill is 3" tall.
- The ProBasket Skill is easy to carry in a car's trunk because the pole is made of two parts
- The ProBasket Skill is mainly meant for portable use. Meaning permanent installation, or prolonged exposure to the elements, can eventually compromise the integrity of the basket's composition

PROBASKET TRAINER

ProBasket Trainer is a solid quality basket for home use that is easily assembled. Unlike many low priced baskets, this has the look and feel of a tournament basket making practice feel like the real deal. It can also be used for temporary courses, where the built in base wheel makes it easy to move. It is PDGA approved for events up to B-tiers.

- Color: Gloss Yellow
- 13 inner and 13 outer chain sets that are zinc coated
- The ProBasket Trainer is electrophoresed first and then powder coated for extra protection from natural elements
- Tension screws are included for increased stability
- The ProBasket Trainer is approved at the Standard PDGA level which means the basket can be used in play for any event up to, and including, a B-Tier
- The top band on the ProBasket Trainer is 3" tall
- The ProBasket Trainer is easy to carry in a car's trunk because the pole is made of two parts
- The ProBasket Trainer is mainly meant for portable use. Permanent installation, or prolonged exposure to the elements, can eventually compromise the integrity of the basket's composition

PROBASKET COMPETITION

Are you ready to step up your game and take your course with you? The ProBasket Competition is the perfect choice for course builders and players looking for a great basket to use at home. Offering a proven, thoroughly tested design, it has a competitive price considering the build quality. With two 13-chain layers, you can feel confident about your putts staying in the basket. If you manage to deliver on the green, you can feel safe knowing that the ProBasket Competition will do the same.

- Color: Gloss Yellow
- 13 inner and 13 outer galvanized chain sets
- Galvanized with a powder coated finish
- Tension screws are included for increased stability
- The ProBasket Competition is approved at the Championship PDGA level
- Built-in wheel on base (Portable version only)
- Ground sleeve, locking collar, and padlock included (Permanent version only)
- The top deflector band on the ProBasket Competition is 3" tall.
- Weight: 57lbs (Permanent version)

PROBASKET ELITE

The tee pads are done, the fairways look great and the greens look challenging in the best of ways. Now all that's missing is a non-compromising top of the line basket? Look no further. Latitude 64 brings you the ProBasket Elite, a Championship level PDGA approved basket. From the ground up, this basket has been made to last and look great for a very long time. Double layers of 14 chains made of 18-8 stainless steel catch everything from putts to hole-in-ones. Bring your course to the highest of standards by equipping it with the ProBasket Elite today!

- Color: Gloss Yellow
- 14 inner and 14 outer chain sets made of 18-8 stainless steel
- Galvanized with a powder coated finish
- Tension screws are included for increased stability
- The ProBasket Elite has welded nuts for easier assembly
- The ProBasket Elite is approved at the Championship PDGA level
- Built-in wheel on the base (Portable version only)
- Ground sleeve, locking collar, and padlock included (Permanent version only)
- Vibrant yellow 3.5" tall deflector band improves visibility in all conditions

★ ★ ★ ★ ★
DISC GOLF
NEVER SLEEPS
★ ★ ★ ★ ★

BOATMAN

For slower arm speeds, you will be able to count on an overstable finish but will give you that extra glide you are looking for without having to grip such a big rim.

SPEED: 11 | GLIDE: 5 | TURN: 0 | FADE: 2

DESTINY

Two things are undeniable about this disc - speed and glide. This beauty really gets out there. Everyone can find a way to throw the Destiny. You will just have to walk a long way to go pick it up.

SPEED: 14 | GLIDE: 6 | TURN: -2 | FADE: 3

KING

The Westside King is our fastest disc for all levels of players. The farthest flying disc in our line, the King is designed to allow the average player to experience a long distance flight.

SPEED: 14 | GLIDE: 5 | TURN: -1.5 | FADE: 3

CATAPULT

Like its namesake, this is made to cover long distances. This is a super-high speed disc that even the big arms will be able to use. Fast with enough stability to really handle a full power throw.

SPEED: 14 | GLIDE: 4 | TURN: -0.5 | FADE: 3

GIANT

The Giant is our most reliable overstable high speed driver. Made for any size arm the Giant is just what it sounds like, Giant hyzer lines. If you are looking for fast and reliable, look no further.

SPEED: 13 | GLIDE: 4 | TURN: 0 | FADE: 3.5

NORTHMAN

Westside Northman is one of our original drivers. It has a bigger feel in the hand, which in return gives it that extra float in the air that you are looking to achieve. The Northman is fast and dependable.

SPEED: 10 | GLIDE: 5 | TURN: -1 | FADE: 2

QUEEN

This Queen is just as fast as its counterpart, but has a noticeably smaller feel in the hand. Great as a bomber or a standstill shot. The Queen will rule your bag with the right mix of grace and power.

SPEED: 14 | GLIDE: 5 | TURN: -3 | FADE: 2

SWORD

The Sword is one of Westside's high speed drivers that is extremely user friendly. Designed to slice through the air with ease, the Sword will hold any line you put it on.

SPEED: 12 | GLIDE: 5 | TURN: -0.5 | FADE: 2

WORLD

Designed as a distance driver, the World gets there fast and flies great close to the ground. It has a low profile and a great feel. You can count on the World to get you further down the fairway right away.

SPEED: 14 | GLIDE: 4 | TURN: -0.5 | FADE: 3

SORCERER

The Sorcerer is Westside's answer for a high speed disc for all skill levels. With a smaller grip than most high speed discs, the Sorcerer leaves the hand fast. The Sorcerer provides a nice long "S" curve line.

SPEED: 13 | GLIDE: 5 | TURN: -0.5 | FADE: 3

WAR HORSE

Disc golfers can charge into battle with the new overstable distance driver from Westside Discs, the Warhorse. Combining higher speed with dependable stability, the Warhorse can tackle strong winds with pinpoint precision.

SPEED: 13 | GLIDE: 4 | TURN: 0 | FADE: 4

**AHTI**

When you're stepping up to heavy wind, your choice should be the Ahti. It is designed to be an overstable fairway driver which will be useful for spike hyzers, flex shots, and windy days.

SPEED: 9 | GLIDE: 3 | TURN: 0 | FADE: 4

**HATCHET**

The Hatchet fits any hand and is extremely user friendly. It holds the line you put it on and is very controllable. A must have for all players, the Hatchet will allow you to throw frozen rope lines.

SPEED: 9 | GLIDE: 6 | TURN: -2 | FADE: 1

**SAMPO**

The fairway driver that you have been looking for and the one that will instantly find a spot in your bag. The Sampo gets great distance with minimal effort.

SPEED: 10 | GLIDE: 4 | TURN: -1 | FADE: 2

**FORTRESS**

The Fortress is a combination of speed, control, and stability. It is designed to be the workhorse for long fairway drives, hyzers, and even flex shots. It is guaranteed that wind will not conquer your Fortress.

SPEED: 10 | GLIDE: 4 | TURN: 0 | FADE: 3

**LONGBOWMAN**

In the same way that the longbow changed warfare, this disc will elevate your game to new heights. Get ready to go farther with less effort than you have come to expect in the fairway driver game.

SPEED: 9 | GLIDE: 4 | TURN: 0 | FADE: 3

**SEER**

The Westside Discs Seer is a driver designed to improve the game of players with smaller hands and lower power. It is an easier to grip, narrow rim understable control driver with good glide and control.

SPEED: 7 | GLIDE: 5 | TURN: -2 | FADE: 1

**STAG**

It has a good stability level and a smaller rim design to accommodate everyone. It is controllable, predictable, and will have a good release in the hand of any player.

SPEED: 8 | GLIDE: 6 | TURN: -1 | FADE: 2

**ANVIL**

When the wind is up and you need an overstable approach disc, look no further than the Anvil. The Anvil has good speed for a midrange with even more overstability than the Bard. If turning isn't an option, reach for the Anvil.

SPEED: 4 | GLIDE: 2 | TURN: 0 | FADE: 4

**PINE**

The Pine is a perfect combination of stability and control. It fits perfectly between Bard and Warship in Westside Discs lineup, and it'll be useful for all skill levels. Choose the Pine and stay on the fairways.

SPEED: 5 | GLIDE: 4 | TURN: 0 | FADE: 2

**UNDERWORLD**

Designed with the newer player in mind, the Underworld will allow any player to accomplish an anhyzer shot. It is under stable and low profile. Great for players to buy as their first disc.

SPEED: 7 | GLIDE: 6 | TURN: -3 | FADE: 1

**BARD**

Stability and resistance to the wind. This is what the Bard was created for and what it accomplishes. The Bard is a stable to overstable midrange disc that feels great in the hand.

SPEED: 5 | GLIDE: 4 | TURN: 0 | FADE: 3

**SLING**

It won't matter the midrange shot that you need to execute. Draw the Sling back and confidently execute the shot.

SPEED: 5 | GLIDE: 5 | TURN: 0 | FADE: 1

TURSAS

The Tursas will allow you to make a midrange anhyzer while you are learning to play. Great for beginners as it has a shallower grip than most mid ranges available on the market.

SPEED: 5 | GLIDE: 5 | TURN: -2 | FADE: 1

2019 RELEASE

GATEKEEPER

The Gatekeeper excels at holding angles. Even when thrown with power, the Gatekeeper stays true with a slight tendency to fade.

SPEED: 4 | GLIDE: 5 | TURN: 0 | FADE: 2

WARSHIP

The Warship is our answer to the everyday players need for a midrange. Designed to be user friendly for all levels, it holds a straight line and feels great in the hand.

SPEED: 5 | GLIDE: 6 | TURN: 0 | FADE: 1

CODAHATFIELD
TEAM WESTSIDE DISCS

CROWN

The Crown is a putter for players that like a beaded rim putter, stable flight, and consistency. A stable flyer with a good glide makes it a great tool in every bag.

SPEED: 3 | GLIDE: 4 | TURN: 0 | FADE: 1

MAIDEN

If you're looking for a neutral putter with a thin profile, the Maiden fits the bill. The Maiden is surprisingly resistant to turn with little fade. Look for the Maiden at Trilogy Challenges near you in 2018!

SPEED: 3 | GLIDE: 4 | TURN: 0 | FADE: 1

SWAN 1 REBORN

The Swan 1 was Westside's original putter, and it would fly straight for anyone right off the shelf. The Swan 1 was designed to give lower arm speeds a straighter putting line.

SPEED: 3 | GLIDE: 3 | TURN: -2.5 | FADE: 0

HARP

The Harp is our most reliable approach disc. Designed to withstand any type of condition. It will hold in the wind.

SPEED: 4 | GLIDE: 3 | TURN: 0 | FADE: 3

SHIELD

Designed with a tacky grip in the BT plastics, the Shield is a little thicker and has a small bead on the rim. It holds a stable line when throwing as an approach and a straight line into the chains while putting.

SPEED: 3 | GLIDE: 3 | TURN: 0 | FADE: 1

SWAN 2

The Swan 2 holds the line a little better and can be used in the wind with success. The Swan 1 was designed to give lower arm speeds a straighter putting line.

SPEED: 3 | GLIDE: 3 | TURN: -1 | FADE: 0

KYLE WEBSTER
TEAM WESTSIDE DISCS

Dynamic Discs started in 2005 as my eBay-based college hobby while getting a business degree at Emporia State University. I never expected it to be any more than a college hobby but after graduating in 2006, it was evident there was something special about the disc golf community. The passion from the disc golf community is ultimately what kept me from finding a career outside of disc golf in the business world.

Fast forward to today, and I'm even more thankful for everything that disc golf has provided for my family and the entire staff at Dynamic Discs. You won't find a more passionate workforce and that has been the reason for the continued growth at Dynamic Discs. While our discs might be manufactured in Sweden by Latitude 64, the staff at Dynamic Discs has grown to 50 employees who are dedicated to growing the sport and taking care of our customers.

Our partnership with Latitude 64 in December of 2012 has been something that is nothing short of extraordinary. From the first four molded discs back in 2012 (Judge, Fugitive, Escape, & Trespass), to 35 molds in total for the 2019 season, we have been very fortunate to find a great manufacturing partner!

In November of 2017, Dynamic Discs & Latitude 64 acquired Westside Discs through a 50/50 buyout agreement. We look forward to putting more emphasis on this brand as these products have been in popular demand.

Our mission is simple, and that is to grow the sport that we all love. Our philosophy in everything that we do is to treat others with respect & civility. If you ever have a less than satisfactory experience at Dynamic Discs, give us the opportunity to make things right, and you'll know why we stand behind our word of being the best in the business for customer service.

From all of us at Dynamic Discs, thanks for an incredible 14 years of business, and we look forward to many more years of being a part of the disc golf community!
